Downloading

Please refer to the following link on the Exclaimer website:

<http://www.exclaimer.com/downloads/mail-disclaimers/default.aspx>

Installing

Download the 'Mail Disclaimers 1.0' installation file 'setup.exe' and run on the Microsoft Exchange Hub Transport Server. An MSI is available from support by contacting

support@exclaimer.com.

Uninstalling

Uninstall can be achieved via the 'setup.exe' or MSI for the currently installed version of 'Mail Disclaimers 1.0' or via 'Add/Remove Programs' in Windows Server 2003 or 'Programs and Features' in Windows Server 2008 & 2012.

The configuration files are located in the following folder and will not be removed as part of the uninstall process:

Operating System	Minimum Requirements
Windows Server 2003 R2 x64	\Documents and Settings\All Users\Application Data\Exclaimer Ltd\Mail Disclaimers
Windows Server 2008 x64 Windows Server 2008 R2 x64 Windows Server 2012 Windows Small Business Server 2008 Windows Small Business Server 2011	\ProgramData\Exclaimer Ltd\Mail Disclaimers

The uninstall process will not lose any of your configuration or settings. However as a backup precaution you may wish to export your configuration.

Export Steps

1. Open the Exclaimer Console.
2. Select the 'Exclaimer' node.
3. Open the 'Action' menu.
4. Select 'Export Configuration...'
5. Select a location and filename for the export.
6. Press Save.

This will export all your settings including all your templates and licensing data.

Upgrading

Upgrading can be achieved by following the steps above to uninstall the current version and then install the new version. You may optionally stop the Microsoft Exchange Transport service once Exclaimer Mail Disclaimers has been uninstalled to prevent message delivery without having a disclaimer being applied. The installation of a new version of Exclaimer Mail Disclaimers will start the Microsoft Exchange Transport service.

Fixed Issues

- Sent items are not updated correctly if multiple messages have the same subject, date and time in the sent items folder.
- When a plain text mail has multiple policies applied, the content can become duplicated after passing through transport multiple times.

New Features

- Exchange 2013 support.
- Policy condition "Body contains" now has the ability to evaluate the contents of the original message above or below the reply separator only.
- Update Sent Items that are Sent-on-behalf If Sent Items Update Service cannot locate a message in the mailbox of the user in the SENDER field, it will attempt to locate the message to be updated in the sent items folder of the user in the FROM field.
